#### The Dynaudio Focus XD series

With the Focus XD series, the Danish high-end loudspeaker specialist Dynaudio presents the next generation of the high-end audio system. With integrated, extremely powerful digital amplifiers, high-performance DSP, its own digital volume control, as well as digital and analogue inputs, the Focus XD is the ideal high-end speaker for modern music listeners.

The Focus XD works from the digital input via the DSP (Digital Signal Processing) to the digital amplifier with native 24-bit/192 kHz resolution. This way high-resolution files are transmitted from a digital player consistently and completely without loss. For playback of high performance analogue sources such as vinyl record players or tape devices, the Focus XD has an additional analogue input. In addition, the Focus XD can be wirelessly connected to the Dynaudio Hub. With the Hub, multi-room and multi-source system installations are also possible.

The Focus XD has the ideal amplifier already integrated: perfectly adapted by DSP to each speaker and driver, fully digital and thus highly power-efficient and sound-faithful to the music signal. The Focus XD has a speaker position EQ with which the bass response can be finely adjusted to the room acoustics. This way, with a speaker setup near a wall or corner, the bass energy can be reduced in order to achieve a balanced playback. Similarly, the high-frequency range can be discreetly raised or lowered. All properties are consistently adjusted digitally and are thus lossless. With analogue music sources, the input sensitivity on the Focus XD analogue input can be adjusted.

The Focus XD models are available in Satin White lacquer and Satin Black lacquer as well as in Rosewood and Walnut real wood veneer finishes. The remote control is designed in black aluminium. Integrate-spike outrigger feet are an additional key feature on the floor-standing models: With a few simple turns, the spikes are exposed and the speakers can be leveled for stable positioning on uneven floors, while for sensitive floor surfaces they can be completely retracted into the feet. Like all Dynaudio speakers the Focus XD is built in Skanderborg, Denmark.

#### The Focus XD models

**Focus 200 XD** – Digital high-end active compact speaker with a 2-way amplifier and 300 watts power.

**Focus 400 XD** – Digital high-end active standing speaker with a 3-way amplifier and 450 watts power.

**Focus 600 XD** – Digital high-end active standing speaker with dual woofers, a 4-way amplifier and 600 watts power.

Dynaudio Focus XD – the next generation high-end audio.

#### Technical Specifications

<b>Frequency Range (<math>\pm 3</math> dB)</b>	Focus 200 XD: 39 – 24 kHz Focus 400 XD: 29 – 24 kHz Focus 600 XD: 27 – 24 kHz
<b>Power consumption</b>	18 – 200 W
<b>Power consumption standby</b>	< 0.5 W (network active)
<b>Power rating (Woofer/Tweeter)</b>	Focus 200 XD: 150 W/150 W
<b>(Woofer/Midrange/Tweeter)</b>	Focus 400 XD: 150 W/150 W/150 W
<b>(Woofer/Woofer/Midrange/Tweeter)</b>	Focus 600 XD: 150 W/150 W/150 W/150 W
<b>Input</b>	Digital Coax (75 Ohm) Analog RCA Wireless (for Dynaudio Hub)
<b>Output</b>	Digital Coax (75 Ohm)
<b>Settings</b>	Variable Bass EQ between Neutral – Wall – Corner Variable Tweeter EQ +/- 1 dB Variable analogue input sensitivity +/- 6dB
<b>Dimensions (W x H x D) incl. front cover</b>	Focus 200 XD: 360 x 198 x 307 mm Focus 400 XD: 980 x 198 x 307 mm Focus 600 XD: 1095 x 213 x 337 mm
<b>Weight</b>	Focus 200 XD: 8.65 kg incl. front cover Focus 400 XD: 18.5 kg incl. front cover and feet Focus 600 XD: 27.0 kg incl. front cover and feet
<b>Power supply</b>	100 – 120 V/220 – 240 V ~ 50/60 Hz
