

## **Dynaudio Connect 1.09 Release Notes**

This is a stability release including bugfixes.

Please note that if using a Focus XD speaker with firmware version 3.05 or above, or Xeo speakers with firmware version 2.03 or above, you must install this firmware version on your Connect for optimum performance.

The release also includes all features of previous firmware releases.

Previous releases introduced the following:

Bugfix related to DLNA playback
